Version	1.1		

Elements Diocesan Learning Trust is a company limited by guarantee registered in England and Wales with the company number 10390487. Registered address: St Barnabas CE First and Middle School | Stonebow Road | Drakes Broughton | WR10 2AW

Our Vision
Ignite Illuminate Inspire

At Madresfield we are a caring inclusive school, where everyone is welcome as Jesus welcomed all. We work closely with all stakeholders to support our children in achieving their God given potential. Inspired by ***Psalm 119:105 "God's word is a lamp to guide our feet and a light for our path"***.

As a school we aim to:

Ignite: to cultivate a love for learning and awe and respect for God's world.

Illuminate: to trust in God to guide us and develop our wisdom and compassion as we journey through school.

Inspire: to help our children to shine as we celebrate their successes and help them to develop into beacons of hope for others within our school and wider communities.

In order for children to achieve their potential we have in place and follow the following school rules:

Be kind- being kind to others.

Be ready- being ready to learn.

Be respectful- being respectful to all.

Be safe- being safe around school.

Equality and Diversity Statement

At Madresfield CE Primary School we promote equality of opportunity. We promote positive attitudes and encourage active participation of all stakeholders regardless of race, gender, disability, age, religion, belief and sexuality.

In so doing we strive to eliminate any unlawful discrimination or harassment of any group and where any such harassment is found appropriate action will be taken immediately.

This policy has been reviewed; to the best of our knowledge we do not feel it impacts negatively on any specific group or individual within our school community.

This is based on the Elements Diocesan Learning Trust Policy.

1. Aims

At Madresfield CE Primary we understand that medical conditions requiring support at school can affect quality of life and may be life-threatening.

Our school will support pupils with medical conditions so that they have full access to education, including school trips and physical education.

This policy aims to:

- Make sure that pupils, staff and parents/carers understand how our school will support pupils with medical conditions
- Set out the roles and responsibilities for everyone in the school community in regard to pupils with medical conditions
- Set out the procedure for creating, reviewing and managing individual healthcare plans (IHPs)
- Set out how we will manage medicines in school
- Reassure parents/carers that the school will help their child feel safe, supported and included

The named person with responsibility for implementing this policy is Mrs R Hibell, Headteacher.

2. Legislation and statutory responsibilities

This policy meets the requirements under Section 100 of the Children and Families Act 2014, which places a duty on governing boards to make arrangements for supporting pupils at their school with medical conditions.

It is also based on the statutory guidance on supporting pupils with medical conditions at school and the Early Years Foundation Stage statutory framework from the Department for Education (DfE).

This policy also complies with our funding agreement and articles of association.

3. Roles and responsibilities

3.1 The Local Academy Board (LAB)

The LAB board has ultimate responsibility for making arrangements to support pupils with medical conditions.

The LAB will:

- Review this policy in a timely manner, in line with the relevant legislation and requirements
- Make sure that the policy sets out the procedures to be followed whenever the school is notified that a pupil has a medical condition
- Monitor practice, and staff training, in regards to pupils with medical conditions, in line with this policy

The LAB delegates the day-to-day implementation of this policy to Mrs R Hibell.

3.2 The Headteacher

The Headteacher will:

- Make sure all staff are aware of this policy and understand their role in its implementation
- Make sure that there is a sufficient number of trained staff available to implement this policy and deliver against all individual healthcare plans (IHPs), including in contingency and emergency situations
- Make sure that all staff who need to know are aware of a child's condition
- Take overall responsibility for the development and monitoring of individual healthcare plans (IHPs)

- Make sure that school staff are appropriately insured and aware that they are insured to support pupils in this way
- Approve risk assessments for school visits and school activities outside the normal school timetable that involve provision for pupils with medical conditions
- Contact the school nursing service in the case of any pupil who has a medical condition that may require support at school, but who has not yet been brought to the attention of the school nurse
- Make sure that systems are in place for obtaining information about a child's medical needs and that this information is kept up to date
- Implement systems for obtaining information about a child's needs for medicines and keeping this information up to date.

3.3 Staff

Supporting pupils with medical conditions during school hours is not the sole responsibility of any one person. Any member of staff may be asked to provide support to pupils with medical conditions, although they will not be required to do so. This includes the administration of medicines.

Those staff who take on the responsibility to support pupils with medical conditions will receive sufficient and suitable training and will achieve the necessary level of competency before doing so.

Teachers will take into account the needs of pupils with medical conditions that they teach. All staff will know what to do and respond accordingly when they become aware that a pupil with a medical condition needs help.

3.4 Parents/Carers

Parents/carers will:

- Provide the school with sufficient and up-to-date information about their child's medical needs
- Provide evidence of appropriate prescription and written permission for medicines to be administered by staff
- Be involved in the development and review of their child's IHP
- Carry out any action they have agreed to as part of the implementation of the IHP, e.g. provide medicines and equipment, and ensure they or another nominated adult are contactable at all times.

3.5 Pupils

Pupils with medical conditions will often be best placed to provide information about how their condition affects them. Pupils should be fully involved in discussions about their medical support needs and contribute as much as possible to the development of their IHPs. They are also expected to comply with their IHPs.

3.6 School nurses and other healthcare professionals

The school nursing service will notify the school when a pupil has been identified as having a medical condition that will require support in school. This will be before the pupil starts school, wherever possible. They may also support staff to implement a child's IHP.

Healthcare professionals, such as GPs and paediatricians, will liaise with school nurses and notify them of any pupils identified as having a medical condition. They may also provide advice on developing IHPs.

4. Equal opportunities

The school will adhere to the legal responsibilities under the Equality Act 2010 and will not unlawfully discriminate against any pupils. Our school is clear about the need to actively support pupils with medical conditions to participate in school trips and visits, or in sporting activities, and not prevent them from doing so.

The school will consider what reasonable adjustments need to be made to enable these pupils to participate fully and safely on school trips, visits and sporting activities.

Risk assessments will be carried out so that planning arrangements take account of any steps needed to ensure that pupils with medical conditions are included. In doing so, pupils, their parents/carers and any relevant healthcare professionals will be consulted.

5. Being notified that a child has a medical condition

When the school is notified that a pupil has a medical condition, the process outlined in Appendix 1 will be followed to decide whether the pupil requires an IHP.

The school will make every effort to ensure that arrangements are put into place within 2 weeks, or by the beginning of the relevant term for pupils who are new to our school.

We will:

- For all new pupils, send a form to all parent/carers of pupils after their place at the school has been confirmed, asking them to confirm any medicine(s) their child needs.
- Send a reminder to parents/carers at the start of each year, asking them to update the school with any new medical needs that may require prescribed or non-prescribed medicines such as antihistamines or paracetamol.

We ask that parents/carers proactively inform us if their child's medical needs change during the school year.

6. Individual healthcare plans (IHPs)

The headteacher has overall responsibility for the development of IHPs for pupils with medical conditions.

Plans will be reviewed at least annually, or earlier if there is evidence that the pupil's needs have changed.

Plans will be developed with the pupil's best interests in mind and will set out:

- What needs to be done
- When
- By whom

Not all pupils with a medical condition will require an IHP. It will be agreed the headteacher if an IHP is required.

Plans will be drawn up in partnership with the school, parents/carers and any relevant healthcare professional, such as the school nurse, specialist or paediatrician, who can best advise on the pupil's specific needs. The pupil will be involved wherever appropriate.

Where necessary IHPs will be linked to, or become part of, any education, health and care (EHC) plan. If a pupil has special educational needs (SEN) but does not have an EHC plan, the SEN will be mentioned in the IHP.

The level of detail in the plan will depend on the complexity of the child's condition and how much support is needed. The headteacher will consider the following when deciding what information to record on IHPs:

- The medical condition, its triggers, signs, symptoms and treatments

- The pupil's resulting needs, including medication (dose, side effects and storage) and other treatments, time, facilities, equipment, testing, access to food and drink where this is used to manage their condition, dietary requirements and environmental issues
- The level of support needed, including in emergencies. If a pupil is self-managing their medication, this will be clearly stated with appropriate arrangements for staff oversight
- Who will provide this support, their training needs, expectations of their role and confirmation of proficiency to provide support for the pupil's medical condition from a healthcare professional, and cover arrangements for when they are unavailable
- Who in the school needs to be aware of the pupil's condition and the support required
- Arrangements for written permission from parents/carers and the headteacher for medication to be administered by a member of staff, or self-administered by the pupil, during school hours
- Separate arrangements or procedures required for school trips or other school activities outside of the normal school timetable that will ensure the pupil can participate, e.g. risk assessments
- What to do in an emergency, including who to contact and contingency arrangements

7. Managing medicines

Prescription medicines will only be administered at school:

- When it would be detrimental to the pupil's health or school attendance not to do so, **and**
- Where we have parents/carers' written consent

The person administering the medicine will keep a written record. Parents/carers will always be informed on the same day the medicine has been administered, or as soon as reasonably possible.

Pupils under 16 will not be given medicine containing **aspirin** unless prescribed by a doctor.

Anyone giving a pupil any medication (for example, for pain relief) will first check recommended and maximum dosages for the pupil's age, and when the previous dosage was taken.

The school will only accept prescribed medicines that are:

- In-date
- Labelled
- Provided in the original container, as dispensed by the pharmacist, and include instructions for administration, dosage and storage

The school will accept insulin that is inside an insulin pen or pump rather than its original container, but it must be in date.

All medicines will be stored safely. Pupils will be informed about where their medicines are at all times and be able to access them immediately. Medicines and devices such as asthma inhalers, blood glucose testing meters and adrenaline pens will always be readily available to pupils and not locked away.

Medicines will be returned to parents/carers to arrange for safe disposal when no longer required.

7.1 Controlled drugs

Controlled drugs are prescription medicines that are controlled under the Misuse of Drugs Regulations 2001 and subsequent amendments.

All controlled drugs are kept in a secure cupboard in the school office and only named staff have access.

Controlled drugs will be easily accessible in an emergency and a record of any doses used and the amount held will be kept.

7.2 Pupils managing their own needs

Pupils who are competent will be encouraged to take responsibility for managing their own medicines and procedures. This will be discussed with parents/carers and it will be reflected in their IHPs.

IHPs will include procedure for staff to follow if a pupil refuses to carry out a necessary procedure or take medicine.

8. Emergency procedures

Staff will follow the school's normal emergency procedures (for example, calling 999). All pupils' IHPs will clearly set out what constitutes an emergency and will explain what to do.

If a pupil needs to be taken to hospital, staff will stay with the pupil until the parent/carer arrives, or accompany the pupil to hospital by ambulance.

9. Training

Staff who are responsible for supporting pupils with medical needs will receive suitable and sufficient training to do so.

The training will be identified during the development or review of IHPs. Staff who provide support to pupils with medical conditions will be included in meetings where this is discussed.

The relevant healthcare professionals will lead on identifying the type and level of training required and will agree this with the headteacher. Training will be kept up to date.

Training will:

- Be sufficient to ensure that staff are competent and have confidence in their ability to support the pupils
- Fulfil the requirements in the IHPs
- Help staff to have an understanding of the specific medical conditions they are being asked to support with, their implications and preventative measures

10. Record keeping

The governing board will ensure that written records are kept of all medicine administered to pupils for as long as these pupils are at the school.

IHPs are kept in a readily-accessible place that all staff are aware of.

We will:

- Enter each pupil's medical needs on Arbor, the school's MIS system
- Update our records when parents/carers of pupils inform us of changes to their child's needs
- Keep a record of changes, labelling the most recent record for each child
- Make sure that all staff have access to records so that they are informed about pupils' medical needs
- Securely hold this information digitally in accordance with the UK GDPR

11. Complaints

Parents/carers with a complaint about the school's actions in regard to their child's medical condition should discuss these directly with the Headteacher the first instance. If the Headteacher cannot resolve the matter, they will direct parents/carers to the school's complaints procedure.

12. Links with other policies

This policy links to the following policies:

- Accessibility plan
- Complaints
- Equality objectives
- First aid
- Health and safety
- Safeguarding
- Special educational needs information report and policy

APPENDIX 1: Being notified a child has a medical condition
